The Editor and Authors noted that, although samples were taken from healthy volunteers who participated in the study, information about the ethical considerations or informed consent from the participants is not present in the published article. The following statement should be added:

Informed consent statement

No clinical study was performed. Pooled biological matrices and

samples were obtained from healthy voluntary employees affiliated with the Center for Advanced Studies and Technology (CAST), University of Chieti–Pescara “G. d’Annunzio”. Prior to participation in this study, all individuals were contacted and provided explicit and informed consent for the analysis and utilization of their samples.
